Facts + Experience = Insights

ASERT is NETSCOUT's elite group of engineers and researchers specializing in information security. Their breadth and depth of knowledge and real-world experience combined with NETSCOUT's unique, unrivaled visibility into global internet traffic and threat landscape, enables them to provide insights and mediation for customers to manage active threats and their long-term security profile.

The ASERT team freely shares insights for the global good threat blogs, customer advisories, and the bi-annual [DDoS Threat Intelligence Report](#), to increase knowledge and preparation for dealing with evolving threats.

A graphic with a dark teal background featuring a network of glowing green and blue nodes connected by thin lines. On the left is a portrait of a man with short dark hair, wearing a white collared shirt. To the right of the portrait, the text 'Ask ASERT' is written in large white letters, with 'NETSCOUT' in smaller white letters below it. Underneath that, 'What is ASERT?' is written in large white letters. At the bottom right, the name 'Hardik Modi' and his title 'AVP Engineering, Threat and Mitigation Products' are listed in white text.
