## Tool: SLRat

Names	SLRat
Category	<a href="#">Malware</a>
Type	<a href="#">Backdoor</a> , <a href="#">Info stealer</a> , <a href="#">Exfiltration</a>
Description	<a href="#">(Lookout)</a> SLRat appears to have gained popularity since its developer first publicized it in May 2016, advertising it as “the Best and Free android remote admin tool”, while <a href="#">AndoServer</a> has not yet been seen for sale or mentioned on public forums. Based on samples ingested to date however, Lookout researchers believe it is also a customizable Android malware that may be for sale, or only known about and used by a smaller group of operators.
Information	< <a href="https://blog.lookout.com/nation-state-mobile-malware-targets-syrians-with-covid-19-lures">https://blog.lookout.com/nation-state-mobile-malware-targets-syrians-with-covid-19-lures</a> >
