Tool: Dripion

Names	Dripion Masson
Category	Malware
Type	Backdoor , Info stealer
Description	(Symantec) Once Dripion is installed, the attacker can access the user's computer. Dripion has the functionality of a back door Trojan, letting attackers upload, download, and steal pre-determined information from the victim, and execute remote commands. Information such as the victim's computer name and IP address are automatically transmitted to the C&C server upon the initial infection.
