win.mirrorblast ([Back to overview](#))

## MirrorBlast

Actor(s): [TA505](#)

---

According to Minerva Labs, MirrorBlast malware is a trojan that is known for attacking users' browsers. It usually pretends to be a legitimate browser add-on however it has now evolved additional capabilities, whereby other malwares are installed simultaneously. Recently, this trojan is thought to have tentative links to TA505 and PYSA groups.
