Never enter your password on a device that you do not fully trust. Do not log in to your account from a shared or public computer.

For enhanced security, install our [browser extension](#) and load MEGA from your computer rather than from our servers.

Do not show again

You've entered spaces at the beginning or end of the file name

There is already an item with the same name

or Esc

MEGA Desktop App is being downloaded to your computer. Please install it as soon as the download has completed.

Once the app is running, your file will start downloading automatically.

	<b>Web browser</b>	<b>Desktop app</b>
Transfer speed:	Fast	Faster
Resource usage:	Heavy	Light
File size:	Limited	Unlimited

Automatically back up data, such as important documents and files, from your computer to MEGA.

Full control over active and completed transfers: prioritise, pause and resume, open, generate links and more...

Access and work with your data securely across different locations and devices. It's always on and fully automatic.

Real-time file versioning, deleted file protection, enhanced performance on file transfers, browser integration and more.

Live encrypted backup

Deleted data retention

Faster transfers

Unfortunately, %1 has an insufficient buffer to decrypt data in the browser, and we recommend you to install the [MEGA Desktop App](#) to download large files %2

Double click to access a file or open a folder.

Right click to see all available options.
