

SSL Checker

Archived: 2026-04-05 15:02:36 UTC

Use our fast **SSL Checker** to help you quickly diagnose problems with your SSL certificate installation. You can verify the SSL certificate on your web server to make sure it is correctly installed, valid, trusted and doesn't give any errors to any of your users. To use the SSL Checker, simply enter your server's public hostname (internal hostnames aren't supported) in the box below and click the Check SSL button. If you need an SSL certificate, check out the [SSL Wizard](#).
