Tool: NitlovePOS

Names	NitlovePOS nitlove
Category	Malware
Type	POS malware , Credential stealer
Description	(FireEye) The NitlovePOS malware can capture and ex-filtrate track one and track two payment card data by scanning the running processes of a compromised machine. It then sends this data to a webserver using SSL. We believe the cybercriminals assess the hosts compromised via indiscriminate spam campaigns and instruct specific victims to download the POS malware.
