## Tool: Barb(ie) Downloader

Names	Barb(ie) Downloader
Category	<a href="#">Malware</a>
Type	<a href="#">Downloader</a>
Description	<a href="#">(Cybereason)</a> Barb(ie) is a downloader component used by APT-C-23 to install the <a href="#">BarbWire</a> backdoor. As mentioned above, in the infection phase the downloader is delivered alongside a video in a .rar file. The video is meant to distract the victim from the infection process that is happening in the background.
