To completely understand what's going on in a market that has been growing in the last years I found mandatory to know which players are on it. Always remember that behind every user of the Internet there is another human like you, so if you can be kind enough to reach them and they agree, you can have a little talk. Asking things is not a crime.

Please note everything that stated on this blog has only an informational purpose. I will never promote the use of these products.

Let's see, Meduza: [@meduza_support](https://www.instagram.com/meduza_support)

The interview was made in English, everything shown here is the original text of the interview.

How you will describe Meduza?

MEDUZA 🙋 Support 🙋

If you try to characterize Meduza in one word: immaculate.

“Immaculate”

g0njxa

What does "Meduza" means? What is the history behind the name?

MEDUZA 🙋 Support 🙋

Regarding the name Meduza, we even have a separate video on the channel with English subtitles

The video can be found here: [#Meduza Stealer productions](https://www.youtube.com/hashtag/meduza-stealer-productions)

What makes Meduza different from other products?

MEDUZA Support

We don't like to compare ourselves to other products in this market, each one is good in its own way.

From our advantages I can mention: a large number of collection objects, low detection of antivirus programs and the ability to install stealer on the client's server

Meduza is trying hard to get a spot in the market, and I think these efforts are not in vain.

Since when has Meduza been working?

MEDUZA Support

12.06.2023 first message about Meduza stealer on the forums and our group

Meduza is one of the youngest malware projects that I've seen on the market. It is kind of active at the moment.

g0njxa

and how many people do you think have tested this product?
Approximately :)

MEDUZA Support

All of our customers have used the product 😊

g0njxa

how many customers, give us an approximate number ☺

MEDUZA Support

Unfortunately I can't tell you that, it's confidential.

Sadly, we can't know how many people used Meduza.

Some expert people says Meduza is a copy of the dead Aurora Stealer, what do you think about this?

MEDUZA 🛡️ Support 🛡️

We have already answered this question many times to all interested parties, you can see our answer in detail here:

“Proofs” that were shared are:

If you want to dive further into the claims of the relation between Aurora and Meduza, here is an amazing blog from an amazing Threat Intelligence Researcher, [@Anfam17](#)

What about the work on CIS countries? I know Meduza doesnt allow to work on russian people, what do you think about the people working on Russians with other products?

MEDUZA 🛡️ Support 🛡️

We are apolitical, we do not wish to comment on this behavior. Meduza does not support work in CIS countries

Meduza follows its own anti-CIS policies.

g0njxa

How do you see the market? It is a good time to work, or is difficult now to get products?

MEDUZA Support

Right now, the market is stable. In the dark sector, professionalism and integrity of the seller are always valued. As far as I follow the market – few people use black marketing tricks, everyone competes in the quality and convenience of the product.

Always work through a guarantor and think through your work several steps ahead, it will definitely lead to success

Meduza comments on the stability of the market, something that can be argued for or against what he says. My thoughts are that the reality of his own product is stable, as said, but this reality doesn't correspond to the reality of the entire market environment. I expect this project will keep operating for long months so further investigations will need to be made

g0njxa

so last question and we finish :)

What would you say to those "information security experts" who are trying to track Meduza?

MEDUZA Support

Interesting question, I'd probably want to advise them not to miss the little things, the little things make up the whole picture

Keep watching buddies!

The end?
