Tool: BBTok

Names	BBTok
Category	Malware
Type	Banking trojan
Description	<p>(Check Point) Check Point Research recently discovered an active campaign operating and deploying a new variant of the BBTok banking malware in Latin America. In the research, we highlight newly discovered infection chains that uses a unique combination of Living off the Land Binaries (LOLBins), resulting in low detection rates, even though this BBTok banking malware has been operating since 2020.</p>
