## Tool: JackalSteal

Names	JackalSteal
Category	<a href="#">Malware</a>
Type	<a href="#">Info stealer</a> , <a href="#">Exfiltration</a>
Description	<p>(<a href="#">Kaspersky</a>) JackalSteal is another implant usually deployed on a few compromised machines that is used to find files of interest on the target's system and exfiltrate them to the C2 server.</p> <p>This tool can be used to monitor removable USB drives, remote shares, and all logical drives in the targeted system. The malware can work as a standard process or as a service. It cannot maintain persistence, so it must be installed by another component.</p>
Information	< <a href="https://securelist.com/goldenjackal-apt-group/109677/">https://securelist.com/goldenjackal-apt-group/109677/</a> >
