

# rarstar (Malware Family)

By Fraunhofer FKIE

Archived: 2026-04-05 14:46:18 UTC

This ransomware encrypts all user's data on the PC (photos, documents, excel tables, music, videos, etc), adds its specific extension to every file, and creates the HOW\_TO\_DECYPHER\_FILES.txt files in every folder which contains encrypted files.

► [TLP:WHITE] win\_rarstar\_auto (20251219 | Detects win.rarstar.)
