Tool: GetMyPass

Names	GetMyPass getmypos
Category	Malware
Type	POS malware , Credential stealer
Description	<p>(securitykitten) To run this malware successfully the attacker would need several pieces of information:</p> <ul style="list-style-type: none"> • Credentials • Name of the POS executable / service • A method for moving the data out of the network <p>This malware seems to be in its infancy. There are debug strings still existent in the malware indicate to me that the author is still testing the tool or is still actively developing it.</p>
