Editor's note: You may have reached this page because you tried to access a URL on ITPro Today, Network Computing, or IoT World Today that is no longer supported.

As of September 2025, these Informa Tech brands have merged with Informa TechTarget. Our news writers and editors remain dedicated to delivering high-quality coverage of a wide range of topics important to IT professionals on [TechTarget.com](#).

While the ITPro Today, Network Computing, and IoT World Today newsletters are no longer being published, we encourage you to explore several excellent [newsletter alternatives](#) that provide the same insightful and practical content you've come to expect.

## Our commitment to our readers

TechTarget's editorial team is deeply committed to providing enterprise technology leaders with independent, actionable guidance and market news. Our mission is to help IT professionals navigate all phases of the technology lifecycle with confidence. We aim to be your trusted source for the news, insights, and information you need to make informed decisions in the ever-evolving IT landscape.

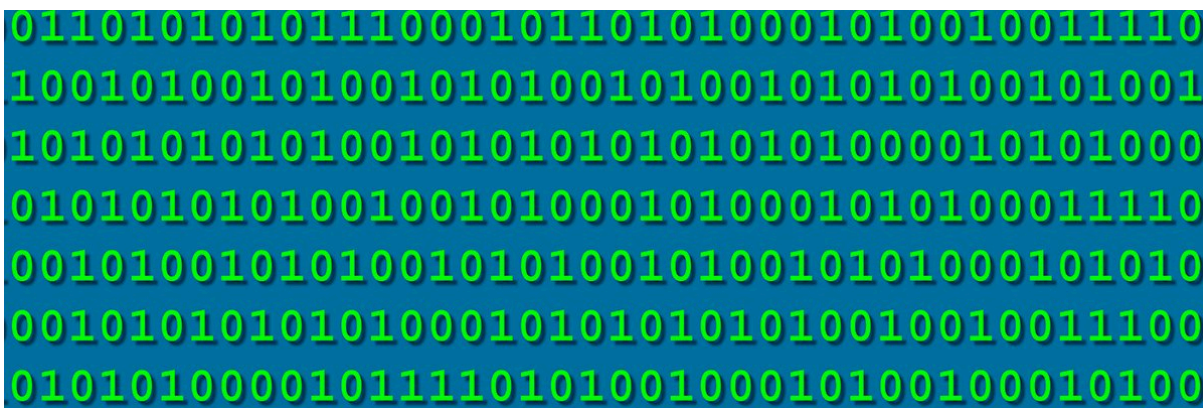

If you're seeking topic-specific coverage, TechTarget.com offers in-depth reporting and analysis on key areas such as networking, IT operations, data management, artificial intelligence, and cybersecurity. Our extensive coverage ensures that you stay informed about the latest trends and business strategies shaping the IT industry.

## Need assistance or more information?

If you're looking for a specific resource or have questions about our ongoing technology coverage, please don't hesitate to reach out. You can contact us directly at [editor@techtarget.com](mailto:editor@techtarget.com) or visit our [editorial contacts](#) page to find an editor or news writer by topic.

For more details about the Informa TechTarget combination, we invite you to read the company's [press release](#) and explore our combined [portfolio of publications](#). Together, we are committed to delivering the same high-quality content and insights that have been the hallmark of ITPro Today, Network Computing, and IoT World Today.
