[Ongoing Phishing Campaign Abusing Google Cloud Storage to Redirect Users to Multiple Scam Pages](#)

Domain: 56 | **Hostname:** 2

A recent analysis revealed an ongoing phishing campaign leveraging Google Cloud Storage infrastructure to redirect users to various scam sites, primarily hosted on the .autos top-level domain. A key aspect of this campaign is a centralized Google Cloud Storage page that functions as a traffic distribution hub. This page directs users to multiple phishing sites based on predetermined campaign configurations, targeting victims with diverse scams including fake surveys, reward schemes, antivirus alerts, and false job offers.
