## Tool: Spindest

Names	Spindest Backdoor.Apocalipto
Category	<a href="#">Malware</a>
Type	<a href="#">Backdoor</a>
Description	<a href="#">(ThreatConnect)</a> This threat has been identified using a malware implant specifically known as “Spindest” or “Backdoor.Apocalipto”. This threat appears to have been in use for some time, and has been primarily observed being delivered from URLs on compromised intermediary websites along with other possibly initial infection vectors such as spearphishing operations. The implant generally uses dynamic command and control (C2) infrastructure.
