

Agent Tesla - Threat Group Cards: A Threat Actor Encyclopedia

Archived: 2026-04-02 10:57:20 UTC

Description([Fortinet](#)) FortiGuard Labs recently captured some malware which was developed using the Microsoft .Net framework. I analyzed one of them, it's a new variant from AgentTesla family. In this blog, I'm going to show you how it is able to steal information from a victim's machine.

The malware was spread via a Microsoft Word document that contained an auto-executable malicious VBA Macro.
