Tool: GreenDispenser

Names	GreenDispenser
Category	Malware
Type	ATM malware
Description	(Proofpoint) GreenDispenser provides an attacker the ability to walk up to an infected ATM and drain its cash vault. When installed, GreenDispenser may display an ‘out of service’ message on the ATM -- but attackers who enter the correct pin codes can then drain the ATM’s cash vault and erase GreenDispenser using a deep delete process, leaving little if any trace of how the ATM was robbed.
