

Gather Victim Org Information: Determine Physical Locations, Sub-technique T1591.001 - Enterprise

Archived: 2026-04-05 15:30:42 UTC

Adversaries may gather the victim's physical location(s) that can be used during targeting. Information about physical locations of a target organization may include a variety of details, including where key resources and infrastructure are housed. Physical locations may also indicate what legal jurisdiction and/or authorities the victim operates within.

Adversaries may gather this information in various ways, such as direct elicitation via [Phishing for Information](#). Physical locations of a target organization may also be exposed to adversaries via online or other accessible data sets (ex: [Search Victim-Owned Websites](#) or [Social Media](#)).^{[1][2]} Gathering this information may reveal opportunities for other forms of reconnaissance (ex: [Phishing for Information](#) or [Search Open Websites/Domains](#)), establishing operational resources (ex: [Develop Capabilities](#) or [Obtain Capabilities](#)), and/or initial access (ex: [Phishing](#) or [Hardware Additions](#)).
