dns recon & research, find & lookup dns records

DNSDumpster.com is a FREE domain research tool that can discover hosts related to a domain. Finding visible hosts from the attackers perspective is an important part of the security assessment process.

## Open Source Intelligence for Networks

### Attack

The ability to quickly identify the **attack surface** is essential. Whether you are **penetration testing** or chasing bug bounties.

### Defend

Network defenders benefit from passive reconnaissance in a number of ways. From **threat analysis** to cyber **security strategy**.

### Learn

Understanding network based **OSINT** helps information technologists to better operate, assess and manage the network.

We have been featured in well known cyber security conferences and resources.

**Map an organizations attack surface with a virtual dumpster dive\* of the DNS records associated with the target organization.**

*\*DUMPSTER DIVING: The practice of sifting refuse from an office or technical installation to extract confidential data, especially security-compromising information.*
