

2000 CERT Advisories

By Software Engineering Institute

Published: 2000-12-31 · Archived: 2026-04-05 19:14:08 UTC

CERT/CC advisories are now part of the US-CERT National Cyber Awareness System. We provide these advisories, published by year, for historical purposes.

This report details the description, impact, and solutions for various vulnerabilities, including Denial-of-Service, malicious HTML tags, and the Love Letter worm.
