

Protected User Data: Contact List, Sub-technique T1636.003 - Mobile

Archived: 2026-04-05 17:16:53 UTC

[S1061 AbstractEmu](#)

[AbstractEmu](#) can grant itself contact list access.^[1]

[S0309 Adups](#)

[Adups](#) transmitted contact lists.^[2]

[S1095 AhRat](#)

[AhRat](#) can collect the device's contact list.^[3]

[S0304 Android/Chuli.A](#)

[Android/Chuli.A](#) stole contact list data stored both on the the phone and the SIM card.^[4]

[S0292 AndroRAT](#)

[AndroRAT](#) collects contact list information.^{[5][6]}

[S0422 Anubis](#)

[Anubis](#) can steal the device's contact list.^[7]

[S0540 Asacub](#)

[Asacub](#) can collect the device's contact list.^[8]

[S1079 BOULDSPY](#)

[BOULDSPY](#) can exfiltrate a device's contacts.^[9]

[C0033 C0033](#)

During [C0033](#), [PROMETHIUM](#) used [StrongPity](#) to collect the device's contact list.^[10]

[S0480 Cerberus](#)

[Cerberus](#) can obtain the device's contact list.^[11]

[S0323 Charger](#)

[Charger](#) steals contacts from the victim user's device.^[12]

[S0425 Corona Updates](#)

[Corona Updates](#) can collect device contacts.^[13]

[S1243 DCHSpy](#)

[DCHSpy](#) has accessed the device's contact list.^[14]

[S0505 Desert Scorpion](#)

[Desert Scorpion](#) can collect the device's contact list.^[15]

[S0550 DoubleAgent](#)

[DoubleAgent](#) has accessed the contact list.^[16]

[S0507 eSurv](#)

[eSurv](#) can exfiltrate the device's contact list.^[17]

[S0522 Exobot](#)

[Exobot](#) can access the device's contact list.^[18]

[S0405 Exodus](#)

[Exodus](#) Two can download the address book.^[19]

[S1080 Fakecalls](#)

[Fakecalls](#) can copy and exfiltrate a device's contact list.^[20]

[S0509 FakeSpy](#)

[FakeSpy](#) can collect the device's contact list.^[21]

[S0408 FlexiSpy](#)

[FlexiSpy](#) can collect device contacts.^[22]

[S1067 FluBot](#)

[FluBot](#) has used the contact list to infect more devices.^{[23][24]}

[S0423 Ginp](#)

[Ginp](#) can download the device's contact list.^[25]

[S1231 GodFather](#)

[GodFather](#) has accessed the device's contact list. [\[26\]](#)

[S0535 Golden Cup](#)

[Golden Cup](#) can collect the device's contact list. [\[27\]](#)

[S0551 GoldenEagle](#)

[GoldenEagle](#) has collected a list of contacts. [\[16\]](#)

[S0421 GolfSpy](#)

[GolfSpy](#) can obtain the device's contact list. [\[28\]](#)

[S0536 GPlayed](#)

[GPlayed](#) can access the device's contact list. [\[29\]](#)

[S0406 Gustuff](#)

[Gustuff](#) can collect the contact list. [\[30\]](#)

[S0544 HenBox](#)

[HenBox](#) can access the device's contact list. [\[31\]](#)

[S1128 HilalRAT](#)

[HilalRAT](#) can retrieve a device's contact list. [\[32\]](#)

[S1077 Hornbill](#)

[Hornbill](#) can collect device contacts. [\[33\]](#)

[S0463 INSOMNIA](#)

[INSOMNIA](#) can collect the device's contact list. [\[34\]](#)

[S1185 LightSpy](#)

[LightSpy](#) has accessed the device's contact list. [\[35\]](#)[\[36\]](#)[\[37\]](#)[\[38\]](#)[\[39\]](#)

[S0485 Mandrake](#)

[Mandrake](#) can access the device's contact list. [\[40\]](#)

[S0407 Monokle](#)

[Monokle](#) can retrieve the device's contact list. [\[41\]](#)

[S0399 Pallas](#)

[Pallas](#) accesses the device contact list. [\[42\]](#)

[S0316 Pegasus for Android](#)

[Pegasus for Android](#) accesses contact list information. [\[43\]](#)

[S0289 Pegasus for iOS](#)

[Pegasus for iOS](#) gathers contacts from the system by dumping the victim's address book. [\[44\]](#)

[S1126 Phenakite](#)

[Phenakite](#) can exfiltrate the victim device's contact list. [\[45\]](#)

[S1241 RatMilad](#)

[RatMilad](#) has accessed the device's contact list. [\[46\]](#)

[S0539 Red Alert 2.0](#)

[Red Alert 2.0](#) can collect the device's contact list. [\[47\]](#)

[S0403 Riltok](#)

[Riltok](#) can access and upload the device's contact list to the command and control server. [\[48\]](#)

[S0411 Rotexy](#)

[Rotexy](#) can access and upload the contacts list to the command and control server. [\[49\]](#)

[S0549 SilkBean](#)

[SilkBean](#) can access device contacts. [\[16\]](#)

[S1195 SpyC23](#)

[SpyC23](#) can exfiltrate the victim device's contact list. [\[50\]](#)[\[51\]](#)[\[52\]](#)

[S0324 SpyDealer](#)

[SpyDealer](#) harvests contact lists from victims. [\[53\]](#)

[S0305 SpyNote RAT](#)

[SpyNote RAT](#) can view contacts. [\[54\]](#)

[S0328 Stealth Mango](#)

[Stealth Mango](#) uploads contact lists for various third-party applications such as Yahoo, AIM, GoogleTalk, Skype, QQ, and others.^[55]

[S1082 Sunbird](#)

[Sunbird](#) can exfiltrate a device's contacts.^[33]

[S1069 TangleBot](#)

[TangleBot](#) can request permission to view device contacts.^[56]

[S0558 Tiktok Pro](#)

[Tiktok Pro](#) can access the device's contact list.^[57]

[S0506 ViperRAT](#)

[ViperRAT](#) can collect the device's contact list.^[58]

[G0112 Windshift](#)

[Windshift](#) has included contact list exfiltration in the malicious apps deployed as part of Operation BULL.^[59]

[S0489 WolfRAT](#)

[WolfRAT](#) can collect the device's contact list.^[60]
