CVE: 3 | **FileHash-MD5:** 58 | **URL:** 3 | **Domain:** 1 | **Hostname:** 15

For over half a decade, the Naikon APT waged multiple attack campaigns on sensitive targets throughout South-eastern Asia and around the South China Sea. It maintained a heavy offensive focus on Myanmar, Vietnam, Singapore, the Philippines, Malaysia, and Laos. Targets and victims included ASEAN governmental agencies and government departments, investment enterprises, military, law enforcement and border control organizations, embassies, university faculties and others.
