Tool: Sliver

Names	Sliver
Category	Tools
Type	Vulnerability scanner
Description	Sliver is an open source, cross-platform adversary simulation/red team platform, it can be used by organizations of all sizes to perform security testing. Sliver's implants support C2 over Mutual TLS (mTLS), WireGuard, HTTP(S), and DNS. Implants are dynamically compiled with unique X.509 certificates signed by a per-instance certificate authority generated when you first run the binary.
