## Welcome to the Broadcom Community

### Find Your Communities

Our communities are designed by division, as you can see below. Visit each division's homepage for a list of product communities under each division. From there, click on the communities you're interested in, choose "Join Community," and select your notification settings. It's that simple. Join as many as you'd like.

[Register Here](#)

**Please note: Your first post to any of our communities will be placed in a moderation queue for review to help us prevent spammers from posting unwanted content. Our community managers closely monitor this moderation queue, and once your first post is approved, your posts will no longer go through moderation. Please do not submit the same post multiple times.**

### Check Out Our Events

Looking for product roadmap webcasts, technical sessions, user group meetings, conferences, and workshops? Check out our events calendars:

## Latest Discussions

Posted in: [Fusion](#)

@Steve\_Strong that doesn't sound like normal behavior for the Mac to crash simply trying an SMB mount. Is the Mac reporting a system crash (and offering to report it to Apple)? some thoughts Let's try try to eliminate Fusion from the equation. Have ...

Hello @oussama omrani Your query is about VMware interoperability matrix where you can choose your upgrade plan by using below VMware article. It will help you to get your questions answered.
