- **Agentic SOC Platform Overview**

Unifies threat intelligence, security data, and agentic AI into a single platform, enabling SOC and CTI teams to collaborate seamlessly. Teams gain context and AI-guided workflows to detect hidden threats, prioritize high-risk incidents, and respond faster.

## Products

- **Unified Security Data Lake**

Complete visibility, AI-guided insights, and unified workflows to detect, investigate, and respond at machine speed.

- The industry's leading threat intelligence platform (TIP) that provides curated access to the world's largest repository of curated threat intelligence.
- Advanced AI and natural language processing to simplify and speed up analysis so you can stop threats in their tracks.

## Use Cases

- All-in-one ETL, SIEM, XDR, UEBA, and SOAR for blazing fast threat detection, investigation, and response.
- The industry's leading threat intelligence platform (TIP) that provides curated access to the world's largest repository of curated threat intelligence.

- **Investigation and Response**

Advanced AI and natural language processing to simplify and speed up analysis so you can stop threats in their tracks.

- Advanced AI and natural language processing to simplify and speed up analysis so you can stop threats in their tracks.

- Advanced AI and natural language processing to simplify and speed up analysis so you can stop threats in their tracks.
- Intelligence Distribution

Advanced AI and natural language processing to simplify and speed up analysis so you can stop threats in their tracks.

## Capabilities

- Threat Intelligence (TIP)

All-in-one ETL, SIEM, XDR, UEBA, and SOAR for blazing fast threat detection, investigation, and response.

### Agentic AI

- All-in-one ETL, SIEM, XDR, UEBA, and SOAR for blazing fast threat detection, investigation, and response.
  - The industry's leading threat intelligence platform (TIP) that provides curated access to the world's largest repository of curated threat intelligence.
- The Anomali Marketplace

A unique cybersecurity marketplace providing instant access to a growing catalog of threat intelligence providers, integration partners, and threat analysis tools.

- Threat Intelligence Feeds

Trial and purchase threat intelligence feeds from Anomali partners – find the right intelligence for your organization, industry, geography, and more.

- Threat Analysis Tools and Enrichments

Gain the tools to pivot quickly from one piece of information to look up other sources of data to get a complete picture of a threat – all one click away.

- Trial and purchase threat intelligence feeds from Anomali partners – find the right intelligence for your organization, industry, geography, and more.
  - Gain the tools to pivot quickly from one piece of information to look up other sources of data to get a complete picture of a threat – all one click away.
- Explore Resources

Dive into the latest cybersecurity and threat intelligence news, tips, and insights through our library of articles, webinars, datasheets, industry reports, case studies, and more.

### Global InfoSec Awards

Anomali scores triple win for SIEM, SecOps, and TIP

SIEM Optimization

Optimize SIEM with an intelligence-native approach built for speed, scale, and action.
