Carousel slider control

“Companies will have a greater technology landscape, but we need to completely change the narrative to inspire people to paint the future. It is human in the lead, not human in the loop.”

Julie Sweet

360° VALUE

Every day, we embrace change and create value for all our stakeholders around the world.

WWF Germany hunts ghost nets using the power of AI

Each year, 50,000 tons of fishing nets vanish into the ocean, silently killing marine life. GhostNetZero uses AI to analyze sonar data and pinpoint these hidden threats with 94% accuracy.
