

Tesorion: Your Partner in Comprehensive Cybersecurity Solutions

Archived: 2026-04-02 11:58:36 UTC

Our model

Tesorion is a multidisciplinary cybersecurity company with 100% focus on four key security disciplines: Security Monitoring, Offensive Security, Security Advisory, and Incident Response.

Our Managed Detection & Response (MDR) service and Tesorion Security Operations Center (T-SOC) form the core of our comprehensive security portfolio, covering everything from predicting and preventing threats to detecting and responding to incidents.

With our holistic approach, we provide a tailored and cost-effective solution for every situation, context, and risk profile. We cover all security domains—Endpoints, Networks, Cloud, Identity, and Applications—fully integrated with advanced detection and response technologies.

At

Tesorion,

we

believe

that

cyber

maturity

grows

through

collaboration.

Our
