

# Detection of Link Target, Detection Strategy DET0893

Archived: 2026-04-05 17:43:41 UTC

## Analytics

- [PRE](#)

## AN2025

If infrastructure or patterns in malicious web content have been previously identified, internet scanning may uncover when an adversary has staged web content to make it accessible for targeting.

Much of this activity will take place outside the visibility of the target organization, making detection of this behavior difficult. Detection efforts may be focused on other phases of the adversary lifecycle, such as during [Spearphishing Link](#) , [Spearphishing Link](#) , or [Malicious Link](#) .
