- [Platform Overview](#)

[A single platform to enable organization-wide decision making—get comprehensive, real-time, and unbiased threat intelligence to identify what matters most.](#)

[Solution Overview](#)

[Defenses that move at machine speed: auto-reset compromised credentials, prioritize actively exploited vulnerabilities, tune controls against TTPs targeting you right now.](#)

Platform Features

[Intelligence Graph®](#)

[Analyze and detect emerging threats with data from 1M+ global sources.](#)

[Collective Insights®](#)

[Enrich data from security tools with threat intelligence to uncover patterns in detections.](#)

[Integrations and APIs](#)

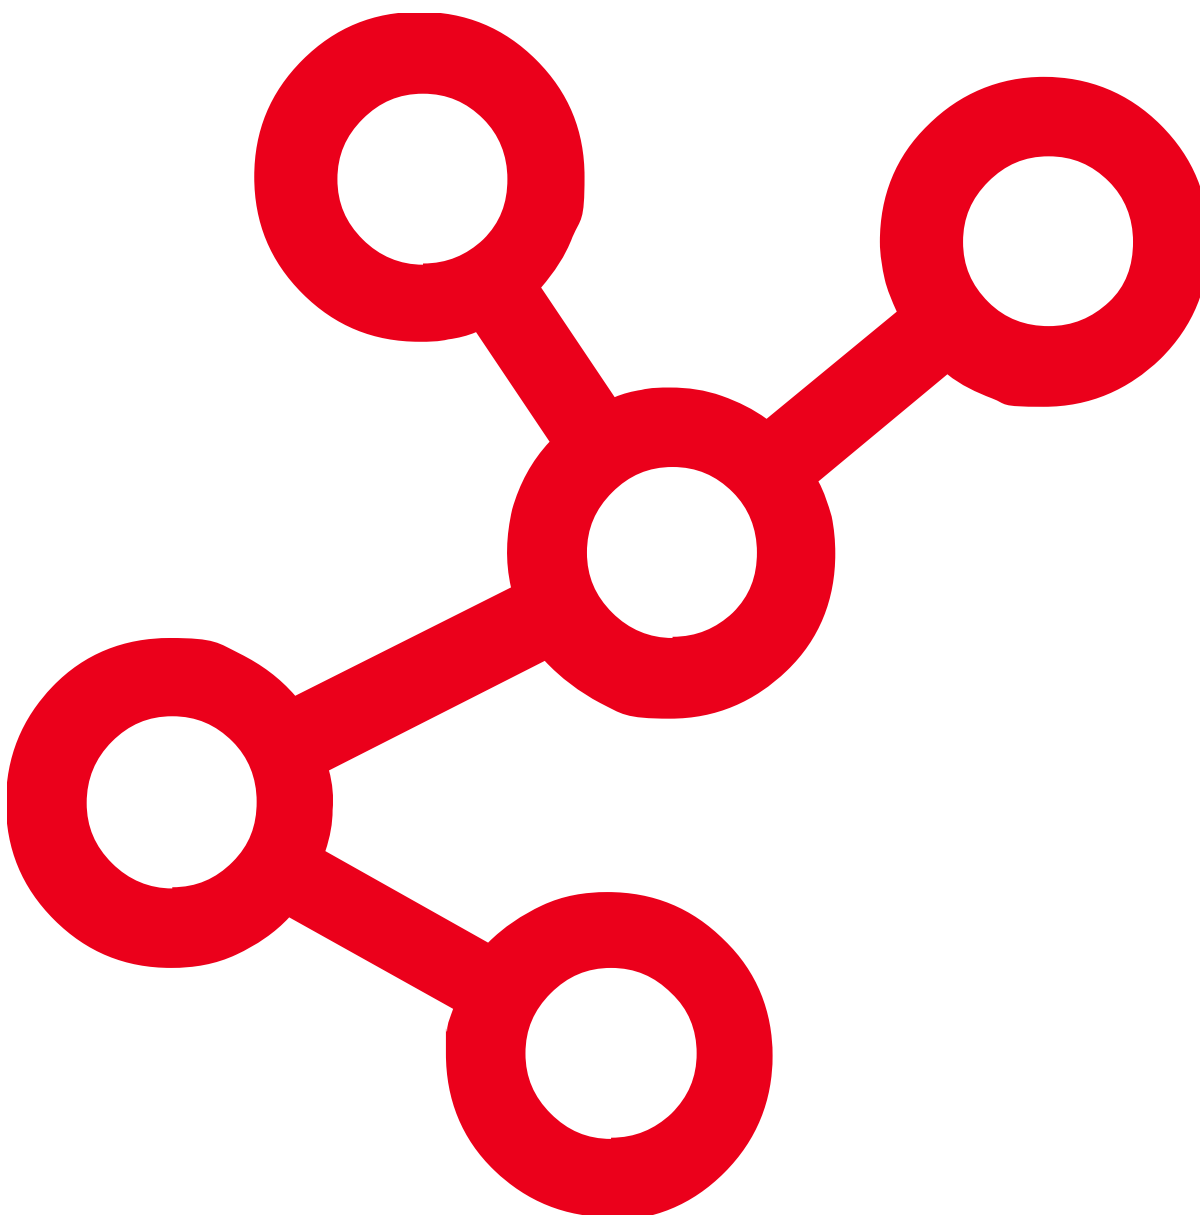

[Connect your security stack through pre-built integrations and flexible APIs.](#)

[Recorded Future AI](#)

[Interact with the Intelligence Graph® with AI Conversations, AI Reporting, and AI Insights.](#)

Solutions

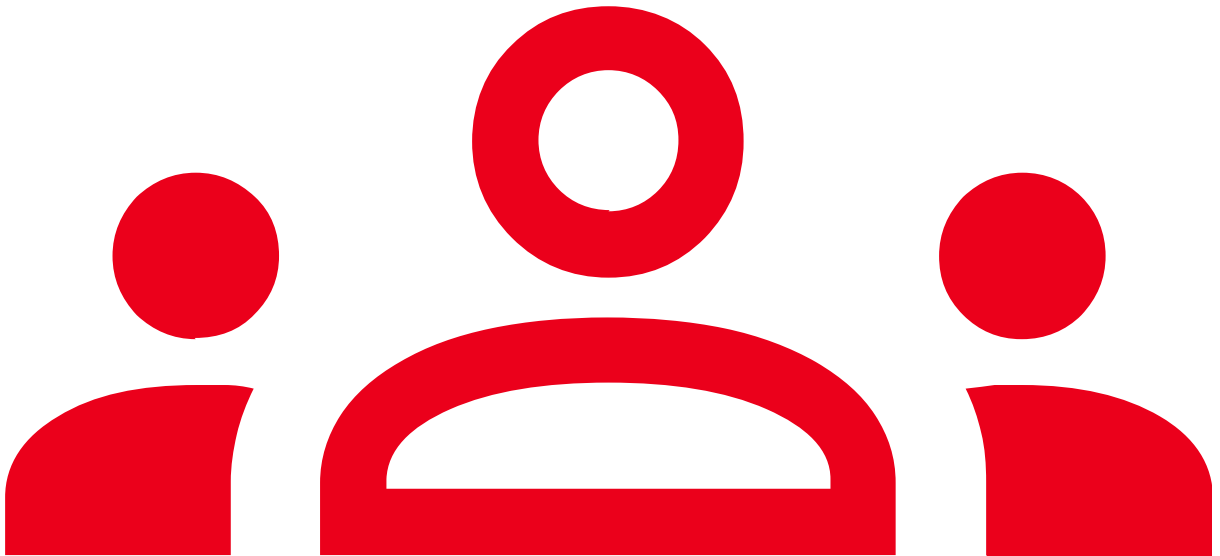

[Cyber Operations](#)

[Intelligence to know, block, hunt, detect, and respond to threats – autonomously.](#)

[Digital Risk Protection](#)

[Intelligence that protects brand and digital trust.](#)

[Third-Party Risk Management](#)

[Continuous, intelligence-driven visibility into suppliers and partners.](#)

[Payment Fraud](#)

[Preventing payment fraud before losses occur.](#)

Extended Capabilities

[Attack Surface Intelligence](#)

[Autonomous Threat Operations](#)

[Geopolitical Intelligence](#)

- [Why Recorded Future](#)

[Discover why the world's leading organizations trust Recorded Future to help identify and mitigate threats.](#)

[Customers and case studies](#)

[Replace VirusTotal](#)

Use Cases

[Ransomware Mitigation](#)

[Prevent ransomware threats across every stage of the attack lifecycle.](#)

[Exposure Management](#)

[Continuously monitor exposure points that can be exploited by adversaries.](#)

[Security Workflow Automation](#)

[Eliminate manual tasks to focus on higher-value intelligence work.](#)

[Supply Chain Risk Mitigation](#)

[Monitor and detect global vendor risk.](#)

[Healthcare](#)

- [Services Overview](#)

[Maximize your intelligence investment at every stage of the journey with our dedicated onboarding and enablement programs, advisory resources, and on-demand support, training, and practitioner community.](#)

Services

[Managed Services](#)

[Extend and enhance your security team with threat intelligence experts.](#)

[Intelligence Services](#)

[Strengthen your intelligence program with integration and advisory services.](#)

[Analyst on Demand](#)

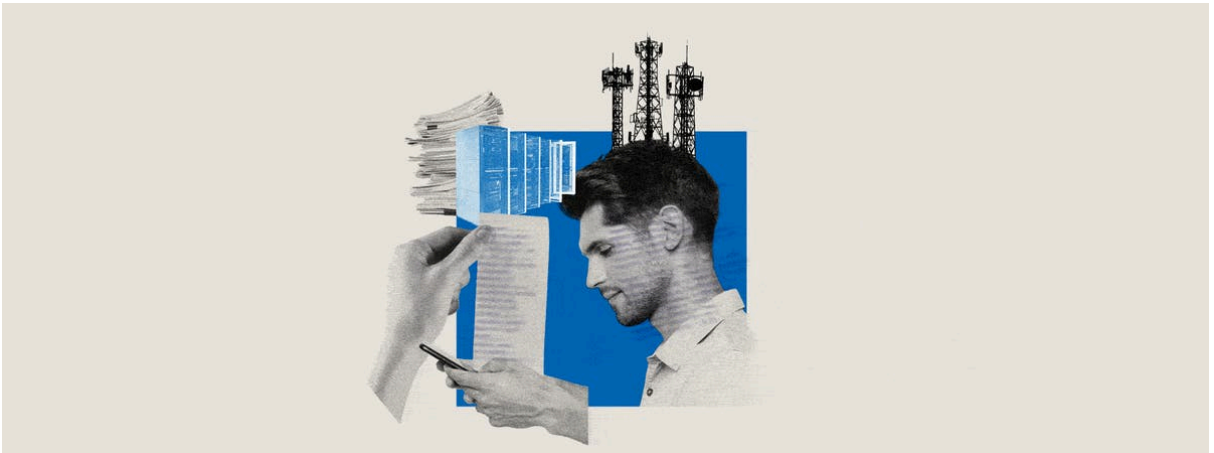

[Get custom intelligence reports, briefings, and training from in-house expert analysts.](#)

- [Insikt Group® Research](#)

[Insikt Group® is Recorded Future's threat research division, comprising analysts and security researchers with deep government, law enforcement, military, and intelligence agency experience.](#)
