

## SLOTHFULMEDIA, Software S0533 | MITRE ATT&CK®

Archived: 2026-04-05 15:12:52 UTC

[SLOTHFULMEDIA](#) is a remote access Trojan written in C++ that has been used by an unidentified "sophisticated cyber actor" since at least January 2017. [\[1\]\[2\]](#) It has been used to target government organizations, defense contractors, universities, and energy companies in Russia, India, Kazakhstan, Kyrgyzstan, Malaysia, Ukraine, and Eastern Europe. [\[3\]\[4\]](#)

In October 2020, Kaspersky Labs assessed [SLOTHFULMEDIA](#) is part of an activity cluster it refers to as "IAmTheKing". [\[4\]](#) ESET also noted code similarity between [SLOTHFULMEDIA](#) and droppers used by a group it refers to as "PowerPool". [\[5\]](#)
