Tool: ViceLeaker

Names	ViceLeaker Triout
Category	Malware
Type	Backdoor , Info stealer , Exfiltration
Description	(Kaspersky) The analysis of the APK was rather interesting, because some of the actions were very common spyware features, such as the exfiltration of SMS messages, call logs and other data. However, in addition to the traditional functionality, there were also backdoor capabilities such as upload, download, delete files, camera takeover and record surrounding audio.
