Tool: 404-Input-shell web shell

Names	404-Input-shell web shell
Category	Malware
Type	Backdoor
Description	(Positive Technologies) The window for logging in to the web shell is disguised as a standard IIS 404 error page. To access the command line and run commands, the attacker must first enter the password. The field for entering the password is hidden: viewing it requires double-clicking the word Back.
