## Tool: BroStealer

Names	BroStealer
Category	<a href="#">Malware</a>
Type	<a href="#">Info stealer</a> , <a href="#">Exfiltration</a>
Description	<p>(<a href="#">Kaspersky</a>) We recently discovered a previously publicly unknown Android implant used in 2018-2019 by the SideWinder threat group, which we dubbed BroStealer. The main purpose of the BroStealer implant is to collect sensitive information from a victim's device, such as photos, SMS messages, call recordings and files from various messaging applications. Although SideWinder has numerous campaigns against victims using the Windows platform, recent reports have shown that this threat group also goes after its targets via the mobile platform.</p>
