## Tool: Rana

Names	Rana
Category	<a href="#">Malware</a>
Type	<a href="#">Reconnaissance</a> , <a href="#">Backdoor</a> , <a href="#">Info stealer</a> , <a href="#">Exfiltration</a>
Description	<a href="#">(ReversingLabs)</a> In today’s world, the most valuable source of such information are smartphones. You carry a smartphone almost the entire time, and, besides being the main tool for everyday communication, smartphones also provide a large set of secondary functionalities, including visual and audio recording and location services. Because of all these capabilities, gaining control over someone’s smartphone provides the malicious actor with a powerful espionage tool. For these reasons, we decided to take a better look at the information and IOCs provided in the referenced report to see if there is anything more to be found about this Android malware.
