Page Not Found (Because Chuck Norris Roundhouse Kicked It!)

Why? Because Chuck Norris doesn't need a URL to find what he's looking for.

What now? Don't worry—Chuck Norris already knows where you were trying to go. But you'll have to retrace your steps and try again.

Pro Tip: Chuck Norris doesn't use the back button. He just stares at the browser until it goes where he wants.

Until then, just remember: Chuck Norris can divide by zero, but even he can't find this page.
