

Wuhan Xiaoruizhi Class of '19

By intrusiontruth

Published: 2023-07-04 · Archived: 2026-04-05 14:33:56 UTC

Welcome back Intrusion Truth readers, it's been a little while. We hope you've spent the time reflecting on our findings from our previous set of articles on suspicious happenings in and around Wuhan. We don't know about you, but even after six articles we felt we had some unfinished business with Wuhan Xiaoruizhi and friends. So, we put together the remaining information we had to give you a few more interesting snippets on APT31's operational infrastructure.

For our first annex, we will tackle a lead that was buried in the information leaked by our disaffected Xiaoruizhi insider, of articles 4 and 5. That employees of Xiaoruizhi (AKA APT31 actors) had moved to new companies in 2020.

We set out to investigate these claims and see if we could identify some, or all, of the follow-on destinations of Xiaoruizhi's class of 2019. And, we are pleased to report, we had a pretty good run.

Let's begin with the link that was most straightforward to piece together. A company we named, briefly, in an earlier article.

A touch of in-depth Googling on some of the known Xiaoruizhi actors brought up the below spreadsheet, which proved to be a goldmine. A spreadsheet of Wuhan City-based individuals in receipt of employment/training subsidies, which, luckily for us, includes the companies they are employed by. Poring through this enormous document, we hit the jackpot. Wuhan Shenzhou Human Resources Development Services.

As of October 2020, no less than 12 Xiaoruizhi actors who we named previously were now on the books of Wuhan Shenzhen Human Resources Development Service.

We again see some familiar characters – graduates of Wuhan Kerui Cracking Academy who left feedback. Xiong Wang, Li Yilong, Hu Jiexiang (who we did not name but can be found on Kerui’s website) and Huang Zhen. Moving onto a human resources department can’t have been part of their plan following their elite hacker training, right?

Wuhan Shenzhen Human Resources appears to be legitimate, at least in the sense that it’s probably a real company. It’s got its own website, which is a start, on which it claims to have 500 square meters of office space and a labor force of 4,000 people. Impressive.

Current Location: Home> Company Profile

about Us

Wuhan Shenzhou Human Resource Development Service Co., Ltd. was established in 2007. It is a professional human resource service company that has been approved by the relevant state administrative departments and has obtained qualifications for labor dispatch and human resource services.

The main business is labor dispatch, labor outsourcing, construction labor subcontracting, mid-to-high-end talent search (headhunting), recruitment, training, payroll and taxation services, human resources management consulting services, new business format industry services, etc. It mainly serves the design and construction of roads and bridges, architectural design and construction, municipal engineering design and construction, landscape design and construction, geological survey, transportation, materials, education, water affairs, telecommunications, chemical industry, commerce, logistics, aviation information, petroleum, etc. for large and medium-sized state-owned enterprises, energy and other industries.

The company's decision-makers have all served as senior executives in large state-owned enterprises. The company's management team currently has 5 senior human resources specialists and 1 certified public accountant. After more than ten years of dedicated operation, Wuhan Shenzhou's manpower has grown rapidly, with a total office area of more than 500 square meters and a management labor force of nearly 4,000 people. It is still in the process of further development and growth.

In the future, Wuhan Shenzhou Human Resources will always keep in mind its original aspiration and mission, continue to forge ahead, focus on improving professional quality, keep up with the pace of the industry, continue to build a first-class management team, strengthen e-commerce platform and informatization construction, and realize "single service". From the multi-wheel drive of "all-round expansion", realize the transformation from "human resource service provider" to "human resource solution provider", and make greater contributions to enterprise and social services.

WSHRS claims to specialize in labor dispatch, labor outsourcing, subcontracting, and headhunting, among a number of other noble pursuits. But this provides a clue. The practice of labor dispatch in China is a process by which employees are hired through an employment services agency and contracted out to an end user, as opposed to the traditional practice of direct employment. The workers sign contracts with the employment services agency, rather than the end user of their services. It's our best guess here at team I-T that Wuhan Shenzhou Human Resources now acts as labor dispatch for these 12 APT31 employees, and dispatches them out to – well – APT31 or as others may know it; the MSS' Hubei State Security Department's cyberespionage program.

Hubei Chuangxin

Our next front company came to us via the gift that has given generously throughout this investigation. Social insurance. Specifically, the social insurance records for Liao Xuliang and Zhou Yin.

For our purposes, the most interesting rows of these documents are at the very bottom right. For both Liao and Zhou the entry marked 201912, i.e. the insurance contribution for December 2019, was registered to Wuhan Xiaoruizhi. But from 202001, January 2020, onwards, insurance contributions are registered to Hubei Chuangxin Human Resources Department.

Readers, if you're anything like us, the span of your interest in Chinese Human Resources Service providers will be limited, so we will spare you too much detail here. But it certainly looks, per the screenshots below, like Hubei Chuangxin provides labor dispatch services in exactly the same way as Wuhan Shenzhou, that is, most probably contracting Liao and Zhou back to the MSS (APT, oops – sorry; typo.....)

company name	Hubei Innovation Human Resources Service Center Co., Ltd.
type of enterprise	other limited liability companies
Operating status	Subsisting
headquarters city	--
Operating period	2002-03-26 to
Registered address	No. 255, Happy Avenue, East Lake Ecological Scenic Area, Wuhan
Business Scope	Licensed items: labor dispatch services; employment intermediary activities; construction engineering construction; construction labor service subcontracting (projects subject to approval according to law can only be operated after approval by relevant departments, and specific business projects are subject to approval documents or licenses from relevant departments) General items: human resource services (excluding job intermediary activities and labor dispatch services); labor services (excluding labor dispatch); business training (excluding educational training, vocational skills training, etc. that require permission); software outsourcing services ;Production line management service;Unit logistics management service;Professional cleaning, cleaning, disinfection service;Technical service,technical development,technical consultation,technical exchange,technology transfer,technical promotion,information technology consulting service.Oil and natural gas technical service;For oil drilling and production Manufacturing of equipment; manufacturing of general equipment (excluding manufacturing of special equipment); manufacturing of special equipment for geological exploration; manufacturing of mechanical and electrical equipment; manufacturing of special equipment (excluding manufacturing of licensed professional equipment); leasing of mechanical equipment; manufacturing of communication equipment; sales of communication equipment; Sales of electronic products; sales of mobile communication equipment; construction of landscaping projects; foreign contracted projects; management of municipal facilities; engineering management

Wuhan Juge/Hubei Win Future

Moving on. A contributor speaking on condition of anonymity provided us with information that a further 12 former employees of Wuhan Xiaoruizhi Science and Technology were now in receipt of subsidies under a separate company, Wuhan Juge Enterprise Management:

- Chang Zhen 常振
- Zhang Chaofeng 张超锋
- Wang Guangcan 万光灿
- Tu Meng 涂梦
- Yan Wenlong 鄢文龙
- Gu Chengwu 顾成武
- Liu Chencheng 刘晨成
- Huang Jin 黄金
- Zuo Hequn 左鹤群
- Li Haiqing 李海青
- Yuan Hongxi 苑红曦
- Hou Qiang 侯强

Wuhan Juge appears to have a number of branches across Wuhan City, and has a wildly diverse business portfolio, which includes (deep breath): Enterprise management, marketing planning, human resource services, loading and unloading, general cargo warehousing services, storage (excluding dangerous goods!), communication engineering construction and maintenance, and, most randomly, sales of automobiles. Seriously impressive range for a company staffed in large part by APT31.

Company Profile

The second branch of Wuhan Juge Enterprise Management Co., Ltd. was established on 2021-06-23. The address is located on the 14th floor, Building 4, Phase I, Modern International Design City, No. 41, Guanggu Avenue, East Lake New Technology Development Zone, Wuhan (work station number: No. 05, E69) (Wuhan area of the Free Trade Zone), with convenient transportation Main general items: enterprise management ; marketing planning; human resource services (excluding job intermediary activities and labor dispatch services); loading and unloading; general cargo warehousing services (excluding hazardous chemicals and other items requiring special handling);

So, there is considerable overlap in personnel/management between Juge and Win Future. Hubei Win Future, according to a congratulatory article about a semi-recent recruitment drive, is a human outsourcing company of China Telecom. It focusses on the recruitment of technical personnel and providing technical talent services for China Telecom's business.

The interviewer from Hubei Wins the Future visits Qianfeng Education Wuhan Campus for door-to-door recruitment

Recently, interviewers from Hubei Win Future Technology Co., Ltd. came to Qianfeng Wuhan Campus to recruit technical talents. The main candidates are engineers in Java development, front-end development, and data analysis. Hubei Win Future is a human outsourcing company of China Telecom. It focuses on the recruitment of technical personnel. It recognizes Qianfeng's education and training level very much and hopes to establish a long-term and stable cooperation with Qianfeng through this door-to-door recruitment.

Hubei Win Future was established in 2018. Seventy percent of its employees are undergraduates with two or more degrees, and 20 percent are postgraduates. Currently providing technical talent services for China Telecom's business, this year's recruitment scale is 400 people, and next year plans to expand to 1,000 people. China Telecom's

According to the article, prospective employees can expect to enjoy all of China's most significant holidays as leave. Lucky them.

We had a source do some digging into Hubei Win Future to see if the overlap with Juge held any significance for us. And what do you know? **We found another Xiaoruizhi employee. Cheng Feng.** Looks like Wuhan Yunqi Media, Teng Fei and Wang Daoqiang own an APT front company empire!

Sensing we were on to something, we continued to look at Hubei Win Future and found a new link. A phone number registered to Hubei Win Future, 18995647475 was also registered to one Hubei Junxinda.

How about Junxinda Technology

□ Complaint _

- Nature: private company
- Scale: 100-499 people
- Industry: [Communication/Telecom/Network Equipment](#) | [Communication/Telecom Operations/Value-Added Services](#)
- Full name: Hubei Junxinda Technology Co., Ltd.

Hubei Junxinda Technology Co., Ltd. was founded on September 18, 2009 with a registered capital of 10 million yuan. Junxinda Technology focuses on the service work in the communication field. It is a high-tech enterprise integrating communication engineering consulting planning, design, construction, network optimization, product sales agency, information value-added services, computer system integration and network maintenance. The "Communication Information Network System Integration Enterprise Qualification Certificate" (Class B) and "The People's Republic of China Value-Added Business Operation License" issued by the Ministry of Industry and Information Technology of the People's Republic of China. The company provides high-quality services to customers based on the concept of "creating trust with sincerity and winning with quality" and the enterprise spirit of "hard work, dedication, unity and cooperation, and serious responsibility". The business involves communication network planning consultation, communication engineering design, communication engineering construction, communication network optimization, indoor coverage and communication network system integration, intelligent project integration system, etc.

Although Hubei Junxinda Technology Co., Ltd. has not been established for a long time, in the face of opportunities and challenges, Junxinda Technology has always implemented the talent strategy of "people-oriented, talent is productivity", constantly improving the organizational structure and management model, encouraging and promoting technology progress, training and training a creative and team-spirited workforce, has attracted and condensed a large number of high and middle-level technical talents in a relatively short period of time. The company has more than 110 employees, more than three-quarters of whom have a college degree or above, and professional and technical personnel account for more than 95% of the total number of employees in the company, including 5 senior engineers, 16 engineers, and 75 junior technical positions. Mr. Yu Muihua, deputy general manager and technical director of the company, is a senior expert in transmission lines and has presided over the design of dozens of large-scale national trunk lines; Mr. Shi Kunlin, a technical consultant, is an expert in transmission network design and has participated in the design of more than 20 large-scale projects; Ms. Yan Xuying, an expert in mobile communication network design, has presided over the planning and design of mobile communication networks in many provincial capital cities of China Mobile and China Unicom; they have more than 30 years of work experience in their respective fields, and have rich experience in project design management. It has very profound attainments in transmission networking and mobile communication networking technology, and has won excellent design awards from the government and the Ministry for many times. Relying on the superb technology, rich engineering experience and scientific and standardized project management process of professional and technical personnel, Junxinda Technology has successively participated in and completed the communication network engineering design and network optimization services of many provinces and cities in China. At present, the company has carried out transmission, access and indoor coverage distribution design business in Guangxi Mobile, Fujian Mobile, Beijing Mobile, Hubei Telecom, Hainan Telecom, Xinjiang Telecom, Shanxi Telecom, Hubei Unicom, and Guangxi Unicom, and has undertaken dozens of engineering projects. The design and three-year rolling planning work, with a total investment of nearly one billion, have achieved gratifying development.

The company adheres to market-oriented, customer satisfaction as the standard, continuous technological innovation and service innovation, and practically explores and improves the project management process. Aiming at the characteristics of rapid technology update and diversified customer needs in the communication market, the company has introduced internal and external links, increased technical training for employees, and improved the level of design capabilities of employees.

Welcome to join Hubei Junxinda Technology Co., Ltd., you will have new opportunities for career development. Let us ignite passion, achieve dreams, and create a better future together!

A friend of I-T investigated their premises on our behalf, and found a secure facility at Hubei Junxinda's address. Here is some imagery of their entrance hall:

Here, we have to admit, our curiosity was piqued, but we ran out of road. We didn't find any additional APT31/Xiaoruizhi employees and were not able to uncover any more on the goings on behind closed doors at Wuhan Juge, Hubei Win Future, and Hubei Junxinda. Any tips, give us a shout.

So, referring back to our original list of Xiaoruizhi employees, we've collated as many of their follow-on destinations as we can.

Chinese	Pinyin	Destination after Xiaoruizhi
曹锦芳	Cao Jinfang	?
常振	Chang Zhen	Wuhan Juge Enterprise Management
程鼎	Cheng Ding	?
程锋	Cheng Feng	Hubei Win Future
顾成武	Gu Chengwu	Wuhan Juge Enterprise management

侯强	Hou Qiang	Wuhan Juge Enterprise Management
胡嘉祥	Hu Jiaxiang	Wuhan Shenzhou Human Resources
黄增辉	Huang Zenghui	Wuhan Shenzhou Human Resources
黄震	Huang Zhen	Wuhan Shenzhou Human Resources
黄振	Huang Zhen	?
李海青	Li Haiqing	Wuhan Juge Enterprise Management
李家诚	Li Jiacheng	Wuhan Shenzhou Human Resources
李圣胜	Li Shengsheng	Wuhan Shenzhou Human Resources
李义龙	Li Yilong	Wuhan Shenzhou Human Resources
廖绪良	LiaoXuliang	Hubei Chuangxin Human Resources
刘晨成	Liu Chencheng	Wuhan Juge Enterprise Management
刘宏伟	Liu Hongwei	Wuhan Shenzhou Human Resources
马欢	Ma Huan	Wuhan Shenzhou Human Resources
唐星昭	Tang Xingzhao	Wuhan Shenzhou Human Resources
涂梦	Tu Meng	Wuhan Juge Enterprise Management
万光灿	Wan Guangcan	Wuhan Juge Enterprise Management
王意军	Wang Yijun	Wuhan Shenzhou Human Resources
魏耀斌	Wei Yaobin	Wuhan Shenzhou Human Resources
熊旺	Xiong Wang	Wuhan Shenzhou Human Resources
鄢文龙	Yan Wenlong	Wuhan Juge Enterprise Management
杨鑫	Yang Xin	Wuhan Shenzhou Human Resources
苑红曦	Yuan Hongxi	Wuhan Juge Enterprise Management
张超锋	Zhang Chaofeng	Wuhan Juge Enterprise Management
张立业	Zhang Liye	Wuhan Shenzhou Human Resources
赵光宗	Zhao Guangzong	?
周鑫	Zhou Xin	Hubei Chuangxin Human Resources
左鹤群	Zuo Hequn	Wuhan Juge Enterprise Management

We still have few gaps, but we are pretty pleased that we have been able to piece together as much as we have.

Now, we may never know what happened at Xiaoruizhi at the end of 2019 that caused APT31 to pursue a mass career change. Perhaps Xiaoruizhi had simply served its time as an APT front and the powers that be needed to move APT31 into different administrative structures.

Any light that our readers can shed would, as always, be gratefully received.
