[Introducing Cobalt Strike Research Labs](#)

Today, we're launching Cobalt Strike Research Labs (CS:RL), a new Fortra offering that unites the research expertise of the Cobalt Strike and Outflank teams. CS:RL

[Release Out: Finally, Some REST](#)

The REST API was a major feature of the 4.12 release and forms part of a broader ongoing change in the Cobalt Strike ecosystem. Therefore,

[Artificial Intelligence for Post-Exploitation](#)

Post-exploitation tasks frequently require manual analysis, such as relying on an operators' expertise to scan a target environment for sensitive information that could support in
