- ▶ [TLP:WHITE] win\_supernova\_auto (20251219 | Detects win.supernova.)
- ▶ [TLP:WHITE] win\_supernova\_w0 (20201216 | This rule is looking for specific strings related to SUPERNOVA. SUPERNOVA is a .NET web shell backdoor masquerading as a legitimate SolarWinds web service handler. SUPERNOVA inspects and responds to HTTP requests with the appropriate HTTP query strings, Cookies, and/or HTML form values (e.g. named codes, class, method, and args).)
- ▶ [TLP:WHITE] win\_supernova\_w1 (20201216 | SUPERNOVA is a .NET web shell backdoor masquerading as a legitimate SolarWinds web service handler. SUPERNOVA inspects and responds to HTTP requests with the appropriate HTTP query strings, Cookies, and/or HTML form values (e.g. named codes, class, method, and args). This rule is looking for specific strings and attributes related to SUPERNOVA.)
