

Detection of Application Layer Protocol, Detection Strategy

DET0685

Archived: 2026-04-05 13:06:38 UTC

AN1793

Abuse of standard application protocols can be difficult to detect as many legitimate mobile applications leverage such protocols for language-specific APIs. Enterprises may be better served focusing on detection at other stages of adversarial behavior.

AN1794

Abuse of standard application protocols can be difficult to detect as many legitimate mobile applications leverage such protocols for language-specific APIs. Enterprises may be better served focusing on detection at other stages of adversarial behavior.
