

Flagpro (Malware Family)

By Fraunhofer FKIE

Archived: 2026-04-02 12:21:45 UTC

According to PICUS, Flagpro is malware that collects information from the victim and executes commands in the victim's environment. It targets Japan, Taiwan, and English-speaking countries. When a victim is infected with Flagpro malware, the malware can do the following:

Download and execute a tool

Execute OS commands and send results

Collect and send Windows authentication information
