Tool: Stuxnet

Names	Stuxnet W32.Stuxnet
Category	Malware
Type	ICS malware , Worm , Rootkit , Wiper
Description	(Wikipedia) Stuxnet is a malicious computer worm, first uncovered in 2010, thought to have been in development since at least 2005. Stuxnet targets supervisory control and data acquisition (SCADA) systems and is believed to be responsible for causing substantial damage to the nuclear program of Iran. Although neither country has openly admitted responsibility, the worm is widely understood to be a cyberweapon built jointly by the United States and Israel.
