

# OpGhoul (Malware Family)

By Fraunhofer FKIE

Archived: 2026-04-05 19:47:59 UTC

win.opghoul ([Back to overview](#))

## OpGhoul

---

This entry serves as a placeholder of malware observed during Operation Ghoul. The samples will likely be assigned to their respective families. Some families involved and identified were Alina POS (Katrina variant) and TreasureHunter POS.
